Dear The Federal Communications Commission,

The flat-fee Universal Service Fund proposal is unfair. Although I do not know if this would lower or increase my bill, I feel that the flat-fee would be unfair and increase bills to many who cannot afford it. In the interest of those who cannot afford it, I oppose the flat-fee. I feel this may just be cost effective because if it is a flat fee there is no money or time spent on monitoring individual accounts, everyone pays.

Thank you.
